

FLEX-MIX AGITATOR

Mobile mixer for tanks and storage silos

The long-axe FLEX-MIX is the problem solver in slurry systems on the farm

It can be used in channels, for dissolving dry slurry or for permanent installation and pits.

Propeller can run both ways and both suck and push the slurry

- Available in lengths from 2.25 m and up to 4.25
- Stainless steel shaft
- Propel standard electro-galvanized
- Supplied complete with motor protection and CEE connector
- 5,5 & 7,5 K.W. motor
